DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-12 in the reply filed on 7/11/06 is acknowledged.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4, 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admitted prior art (AAPA) in view of Franks (U.S. Patent 6732899).

AAPA as found on page 3, lines 3-18 of the specification, discloses a method of boarding an item comprising the steps of: feeding a board onto a rotatable table; and placing an item on the board; rotating the table.

But AAPA fails to teach the step of affixing the item to the board with an elastic staple.

Franks teaches the step of affixing the item to the board with an elastic staple (col.1, line 65 – col. 2, line 4).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ the step of affixing the item to the board with an elastic staple, as taught by Franks on the method of AAPA so as to secure the products on sale, such as toy, hardware item or houseware item onto a display card.

Allowable Subject Matter

4. Claims 10-12 are allowed.
5. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
